Summary

As an AI Engineer with a B.Sc. in Mathematics, I build intelligent
systems that automate workflows, enhance decision-making and
deliver business value. I've designed multi-agent frameworks that
automate 60#% of manual tasks and deployed computer-vision
pipelines achieving 92#% recognition accuracy. My toolkit spans
Python, TensorFlow, PyTorch, LangChain, AWS and Kubernetes.
I'm passionate about demystifying AI through technical writing and
open-source projects.

Experience

Flutterwave
8 months

Machine Learning Engineer
June 2025 - Present (6 months)

Junior Data Scientist
April 2025 - June 2025 (3 months)

Designed and deployed a multi-agent automation framework using LangGraph
and LlamaIndex that reduced manual workflow time by 60#% and increased
processing speed by 45#%

Dataset Nexus Tech FZE
Machine Learning Engineer
January 2024 - February 2025 (1 year 2 months)
United Arab Emirates

Galaxy Backbone
DevOps Engineer
January 2023 - January 2024 (1 year 1 month)
Abuja, Federal Capital Territory, Nigeria

SkillBoost Africa

Data Science Researcher
April 2022 - December 2022 (9 months)
Port Harcourt, Rivers State, Nigeria

SOI Consulting Ltd
Functional Consultant
February 2020 - April 2022 (2 years 3 months)
Abuja, Federal Capital Territory, Nigeria

CypherCrescent Limited
Applied Mathematician
April 2020 - September 2020 (6 months)
Port Harcourt, Rivers State, Nigeria
